DR*Net*®/Unified for Business Integration

Meeting today's business requirement for greater participation by HPE NonStop systems across enterprise hybrid IT

DR*Net*®/Unified for Business Integration is a solution ensuring data created on NonStop is made available to databases and processes residing on systems separate from NonStop that can best leverage the fresh data created by mission critical transactions performed in real time. Fresh data has a half-life measured in minutes and not days and when delivered to databases and processes it's contribution to the enterprise is both timely and influential when it comes to gaining meaningful business insights.

Product Description:

Introducing a combination DR*Net*®/Vision and DR*Net*®/Open as a stand-alone package that will readily coexist with your choice of the Business Continuity products to bring to your enterprise data integration, transformation, and distribution.

Bringing to NonStop customers all the benefits of DR*Net*®/Unified for HPE Customers but with the option of not activating DR*Net*®/Core in support of data replication for business continuity. DR*Net*®/Unified for Business Integration is an ideal choice for those Nonstop customers who already have products deployed in support of data replication but are looking to better distribute, integrate and transform data created by solutions deployed on NonStop.

DR*Net*®/Unified
FOR BUSINESS INTEGRATION

A combination of DR*Net*®/Vision and DR*Net*®/Open, NonStop customers are freed of any restrictions as to where data can be moved

- ☑ Distribute data to Oracle or DB2 whether in the cloud or on the edge
- ☑ Integrate your data with Kafka, Splunk<, ELK and more
- ☑ Addition of data transformation when pursuing integrationn

Features:

- Continuing support of industry standards including Change Data Capture (CDC), JDBC and JSON. Providing a simple one-stop solution to moving data everywhere its needed whether it is to an open database or popular process including solutions supporting data analytics where access to data created on NonStop has become a necessity.

- Extending solutions for NonStop users whether an existing DR*Net*® customers or new to DR*Net*®. This now includes all NonStop users who have other solutions deployed in support of business continuity as **DRNet®/Unified for Business Integration has no requirement to activate DRNet®/Core**.

- A continuation of NTI's vision to provide all NonStop users with a single solution for all their data movement requirements of data distribution, integration and transformation.

Benefits:

- Low-impact, low footprint solution that provides immediate value to NonStop users from a vendor whose history with NonStop spans multiple decades and where the experience of NTI will prove advantageous when next you need to move your data.

- Any NonStop audited or unaudited database or file is fully supported; no additional products or utilities required.

- One product packaged as one solution, one point of contact with access to the DRNet® features that best meet your data needs.

DR*Net*®/Unified
PROVisioning: Excellence in Data

NTI focus is on NonStop data, your data:
NTI excels with its professional provisioning exhibiting excellence in all aspects of data movement.

NTI attention is on preserving integrity, your data safety: NTI ensures back up of the critical data for more meaningful business insights takes place continuously in real time. When deploying data replication solutions, mitigating risks mandates operating from a safe haven.

Enterprises value NTI and its history, access, value, experience and its ability to navigate every route taken by data created on NonStop. With direct sales and support engagement, NTI not only makes certain a simplified line of sight is maintained and in so doing, provides the lowest Total Cost of Ownership (TCO).

Replicated
for Business Continuity

Integrated
for Business Insight

Distributed
for Business Cooperation

Transformed
for Business Opportunity

When it comes to deploying data replication, mitigate all migration risks working out of a safe HAVEN.

Considering migrating away from existing solutions on NonStop?
Reduce your risk and trust the NonStop partner with a long-standing tradition of supporting NonStop customers.

There are five important components to consider that differentiate NTI from all competitors:

H FOR HISTORY
NTI pioneered Change Data Capture (CDC) technology for NonStop over three decades ago
- the least intrusive, lightest footprint and best performance

A FOR ACCESS
Talk directly with NTI
- only replication solutions vendor with direct sales and support for HPE NonStop

V FOR VALUE
Fully integrated enterprise replication solution on NonStop
- one stop shopping; no additional products required

E FOR EXPERIENCE
Most comprehensive replacement product suite, lowest investment option, leveraging real-world experience
-best alternative to poorly support product offering lacking verifiable roadmap

N FOR NAVIGATE
Ease of networking, connecting with Databases, Business Intelligence, Data Warehouses,
-industry-standard integration via JDBC access calls and JSON messaging
